# PREFACE.

---

The Buxton mineral water is discharged from several openings in very large quantities, at a temperature of 82 degrees, Fahrenheit. It is charged with nitrogen gas, in, probably, a larger degree than any other mineral water. This gas is presented in water which has, otherwise, alkaline, earthy, and saline properties; and is remarkably detergent and softening to the skin when used as a bath; while it is free from odour or disagreeable taste, is clear and bright in its appearance, and of a singularly beautiful faintly-blue colour.

The medicinal action of the water, whether used as baths, or drunk, has been from time immemorial known to be great, in relieving or curing all conditions of a rheumatic or gouty character. It is stated by Dr. Jones, so long ago as the year 1572, that it was then used for the relief of the same ailments as it is at the present time.

Dr. Jones says, that in his time Buxton was much resorted to by poor afflicted persons; and towards the end of the 16th century, this was considered to be so serious an injury by the inhabitants of the adjoining chapelry of Fairfield, as to render them unable to provide funds for the maintenance of their chaplain, by reason of the urgent and continued claims of the many poor sufferers resorting to the Buxton Baths, as set forth in a petition on this matter addressed by them to Queen Elizabeth. These poor persons had been from time immemorial so far aided, as to have had gratuitous baths of the mineral water provided for them; and there seems to have been a fund called the "Treasury of the Bath," by which their pecuniary necessities were more or less ministered to. Dr. Jones writes, in reference to this fund, what may be quoted in this place:—"If any think this magisterial imposing on people's pockets, let them consider their abilities and the sick poor's necessities, and think whether they do not in idle pastimes throw away in vain, twice as much yearly; it may entail the blessings of them who are ready to perish upon you, and will afford a pleasant after-reflection. God has given you physic for nothing; let the poor and afflicted (it may be members of Christ) have a little of your money,—it may be the better for your own health; Heaven might have put them in your room and you in theirs; then a supply would have been acceptable to you."

Beyond this somewhat vague earlier history, there is no record of the Buxton Bath Charity until the year 1785, of which date there is extant at the Hospital, a document (*vide* pages 38-39), apparently an annual report of the Institution, from which time the use of the baths and waters and pecuniary aid had been regularly given to the poor Patients, until the year 1859, when the Devonshire Hospital was provided for the reception of the Patients.

The air of Buxton, resting on the large area of the mountain limestone and millstone grit formations, at an elevation of 1000 feet and upwards above the sea level, must be an important factor in enhancing the health advantages of the situation of the Hospital; and the sanitary position that has been secured by the efficient drainage and sewerage of Buxton, and its conveyance to a distance from the town; and complete chemical defæcation, and the destruction of all remaining refuse in a powerful furnace, must have completed the sanitary advantages, and lessened beyond calculation the risks of zymotic or epidemic disease. The reduction of the yearly death-rate to one or one-and-a-half per cent., as recorded by Mr. Frederick Turner, the Medical Officer of Health, is the well-earned result of the well-devised action of the Buxton Local Board.

It has been gathered from the annual reports that, in the eighteen years, from 1820, 14,906 Patients were admitted to the benefits of the Charity; of which number, 12,608 were discharged as cured or much relieved.

In the twenty following years, from 1838 to 1858, 23,319 Patients were admitted; and of these, 16,575 were cured or much relieved; 5859 were relieved in some degree; and 885 were no better at the time of discharge.

The Devonshire Hospital was opened for the reception of the Patients of the Charity, in the year 1859. It is the successful result of the conversion of a very extensive range of buildings, erected and used as stables since the commencement of the present century. The structure, which is of an important and substantial character, surrounds a parterre of considerable extent, and contains a colonnade of handsome proportions, is situated on a commanding eminence, presenting views of the town and valley of Buxton, and is near to the baths, the railway stations, and the principal buildings. It is curious and interesting, that in what purports to be the first volume of a work, entitled "*Les Delices de L'Espagne et du Portugal*," dated 1707, plate 495, is an exact representation of the interior area of the Devonshire Hospital. (*See frontispiece.*) The plate is inscribed "*Palais des Rois Chrétiens à Granade, vu par dedans de la Cour.*" It does appear to be an extreme turn of what we may surely think to be Providential fortune, that such a building should have been

used as the design for stables, and the stables have become, little more than half a century after erection, a Hospital for the reception and care of the poor afflicted sufferers, resorting to Buxton for the use of its mineral waters.

From the year 1820, then, to the beginning of September, 1858, when the Hospital was opened, or in 38 years, the Institution had received 38,225 Patients; of which number 35,042 were beneficially treated, and 2183 were very partially if at all relieved. During those 38 years, the Buxton Bath Charity received, on an average, upwards of 1000 Patients every year, and afforded cure or marked relief to 922 of that number. To a very large proportion of this important number of poor sufferers, chiefly from chronic rheumatism, the Charity gave a weekly allowance of 6s. during their stay in Buxton, in addition to all other benefits; until the funds became so seriously impaired, that the weekly money allowance was necessarily reduced to 5s., at which sum it remained until the opening of the Hospital. From the time of reducing the weekly money allowance, the pecuniary prosperity of the Buxton Bath Charity may be dated. The funds accumulated year by year, until the time of rebuilding the Buxton Baths, on the part of the 6th Duke of Devonshire, when a capital of nearly £3000 had been gathered together by the scrupulous management of the Trustees. The names may be mentioned, first and particularly, of the late Bishop Spencer, at one time a trustee, and incumbent of Buxton, and more recently one of the Vice-presidents of the Hospital; of Mr. Heacock and Mr. Smithers, its successive Treasurers; and of Sir Charles Sendamore, Dr. Robertson, Mr. Page, Mr. Cumming, Dr. Carstairs, the Rev. R. P. Hull-Brown, and the Rev. the Honourable F. R. Grey, as being no longer alive to witness and take part in the present development of the Charity. Of these £3000, £500 was judiciously expended on the rebuilding of the Charity Natural Baths; the large remaining sum which those Baths cost, and the whole cost of the Hot Baths of the Charity, having been paid by the munificence of the 6th Duke of Devonshire. Again, in 1853-4, when the proposal of a Hospital to receive the Patients of the Institution was brought before the public by Mr. Smithers and the other Trustees, the sum of £1000 from the accumulated fund was given towards the Hospital; leaving a residue of £1500, which sum remains as a portion of the investments. (See Estate Account.)

The history and doings of the Buxton Bath Charity have thus been summarily brought down to the time of forming the Hospital, the expenses of which were defrayed by the individual and collective liberality of the Trustees; by special subscriptions from the public; by the proceeds of a bazaar, that was bountifully supplied and supported, &c.—a total sum of £6000 having been thus got together, and expended on the conversion of this

valuable building to hospital purposes. This conversion, with its anxious details and successful results, was mainly due to the untiring exertions of the late Mr. E. W. Wilmot, aided by the architectural skill of Mr. H. Currey, and the liberal consideration of the 6th Duke of Devonshire.

During the years 1851 to 1858-9 the office of Secretary to the Buxton Bath Charity was held by the late Mr. James Wardley; and the Secretarial duty, in connection with the large and liberally-supported Bazaar, was willingly and sedulously performed by Mr. Wardley, until the Hospital was instituted.

It forms an interesting episode in this history, that, in the Winter of 1862-3, during what will be long remembered as the Cotton Famine, a special fund was obtained, chiefly by the exertions of the late Mr. Wilmot; and 100 young women, under 30 years of age, selected by the Relief Committees of their respective towns, as being most likely to be benefited by the change of air and the comforts of the Hospital, were received and taken care of, as to food and as to medicines, and restored to their homes in the subsequent Spring, with renovated health and strength, and full of gratitude for what they had received. The balance of the subscriptions, amounting, with interest, to £256, was invested as a separate fund for ever, to enable poor female operatives from factory towns to be received into the Hospital.

A very important circumstance in the history of the Hospital is, that the grounds in front of it were, with much kind consideration, made over to the Institution on the part of the late Duke of Devonshire; maintaining the detached position of the building, enhancing its appearance, and adding to the outdoor advantages of the Patients.

The building is the property of His Grace the Duke of Devonshire; and the conversion of it to the use of the Hospital for ever, was benevolently granted by the 6th Duke of Devonshire, as testified on the stone on the south front of the building, on which is inscribed: "The last munificent Charity of William Spencer, the 6th Duke of Devonshire, K.G., who allowed these buildings to be converted to the use of the sick poor, January, A.D. 1858." A considerable sum of money that had been collected for the construction of the Hospital was expended upon the work. The walls and roof of the structure were fortunately found to be in good preservation; the interior was entirely removed and re-arranged; the subsoil carefully taken away; and about two-thirds of the building occupied for the purposes of a Hospital, and by a chaplain's house, a dispensary, and a dispenser's apartments, a house for the master and matron, kitchen, day-rooms, dining-hall, and spacious dormitories; affording separate beds for 120 Patients,

in addition to the beds provided for cases of accident, and in addition to the rooms required for the servants of the establishment.

During the year 1868, a legal Conveyance of the buildings and grounds of the Hospital was given to the Trustees by the late Duke of Devonshire, at the nominal rent of five shillings yearly; on the condition that they shall be used exclusively for the purposes of the Charity. (A copy of the Conveyance is appended at page 31.)

During the year 1872, the Chaplain's house was converted to the general purposes of the Hospital; the number of beds for Patients was raised to 150, and better accommodation afforded to the Out-Patients, Dispensary, &c.

During the year 1878, a legal Conveyance of additional buildings and ground was made by the late Duke of Devonshire. This addition was acquired by the Trustees, to enable them to accept a proposed grant from the Cotton Districts Convalescent Fund for the extensions described below. (A copy of this Conveyance will be found at page 33.)

During the same year, 1878, the land and buildings of the Charity Hot Baths were legally conveyed by the late Duke of Devonshire to the Trustees, at the nominal rent of five shillings yearly. (A copy of this Conveyance will be found at page 35.) An undertaking was entered into during the same year, by which the Charity Natural Bath is held by the Trustees under a nominal rent of five shillings yearly.

During the forty-one years since the Hospital was opened, there have been 79,475 Patients under treatment, of which number 70,788 have been treated beneficially; and 9933, or about one-eighth of the whole, were not suffering from any of the forms of rheumatism, but were such cases as are ordinarily met with in hospitals. On the average of the forty-one years, the Patients remained under treatment nearly 24 days; and 69,542 cases of rheumatism, embracing every conceivable variety of this obstinate disease, were thus extensively relieved by the remedial agency of the Buxton mineral waters.

During the year 1881, the great extension works of the Hospital were practically completed, and the Hospital was formally opened by the Patron, His Grace the late Duke of Devonshire, and the Governors of the Cotton Districts Convalescent Fund, on the 11th of October. The accommodation for the additional number of Patients, under the grant of £24,000 from the Cotton Districts Convalescent Fund, was obtained by the removal of the two walls which traversed the entire circuit of the main building, and formed the corridor communicating with the various wards; the whole space from the outside to the inside of the building was thus thrown open, and inner and outer

windows supplied to all the wards ; the internal area was thus increased very greatly, and ample space provided for wards and day-rooms to receive and accommodate the 300 Patients. But an independent means of access to all the rooms of the Hospital was rendered necessary in consequence of this arrangement ; and this was obtained by covering the large area of the interior, and giving access to the ground floor rooms from the floor of the inner basement, and to the rooms of the upper floor, from a gallery above this. This arrangement has, however, not only supplied the means of access to all parts of the Hospital, but has enabled all the wards to be practically detached from one another, almost giving the advantages of the deservedly praised pavilion principle of hospital construction ; while it has facilitated the ventilation of the whole building to an important degree, and increased the free and ready admission of light to every part of the interior. The gallery has with much ingenuity been constructed exclusively of bricks and iron, by which it has been rendered entirely fireproof, giving all possible security in the event of fire. The great, covered, dry, warmed area of half-an-acre, canopied by the largest dome that has ever been erected, supplies very obvious and valuable contingent advantages for the recreation of the Patients in all cold or doubtful weather ; advantages which must represent a value to the afflicted and often crippled inmates, beyond any calculation. As the whole of the main building is now devoted to the Patients of the Hospital, new buildings have been erected on the north side, for all purposes that might be desirably detached, such as kitchen and kitchen offices, laundries, engine rooms, cellars, storerooms, bedrooms for household servants, separate wards for accident cases, and rooms for the immediate isolation of any cases of infectious character that might become manifested. The extensions were carried out under the architectural superintendence of Mr. R. R. Duke. The £24,000 expended from the Cotton Districts Convalescent Fund give a prior claim on the 150 additional beds to the nominees of the Fund ; and these beds have been allotted to the principal Hospitals within the area of the manufacturing districts. It cannot but be a subject of much regret that the extension has cost a larger sum than the grant by nearly £9000, besides the £5000 paid for the land and premises for the Hospital Extension. It is of evident importance that this outlay should not be left as a charge on the means and resources of the Hospital.

During 1896, the Terrace surrounding the Hospital building has been laid down with asphalt, rendering this extensive promenade available for Patients whose ailments have hitherto debarred them from taking exercise thereon owing to the irregularity of the gravelled surface, and its condition after rains.

This Prefatory account has seemed to be needful, for the information of those not already acquainted with the nature and merits of this Institution.

W. H. R.

---

A Clock Tower was erected in 1882, over the principal entrance of the Hospital, by subscriptions specially given for this purpose; the late Duke of Devonshire contributing the sum of £200 thereto, and also presenting a clock, with Cambridge chiming apparatus, and four illuminated dials, at a cost to His Grace of £500. The expense of lighting this clock, during the hours of night, has been kindly undertaken by the Buxton Urban District Council. It was intended that a portico of architectural character should have been erected as an ornament and protection to the principal entrance; but funds were not forthcoming. Such a completion is evidently desirable, and is commended to the kind consideration of munificent benefactors. It is needful to the architectural completion of the exterior of the Hospital.

---

The general wish which was expressed that the successive Patrons and Presidents and Vice-Presidents, the Trustees and members of the Committee of Management of the Buxton Bath Charity, and more recently of the Devonshire Hospital, should be requested to present photographic copies of their portraits of suitable size and plainly framed, to be hung on the walls of the Board Room of the Hospital, as an interesting record of its history, benefactors, and executive friends, has been attended with marked success, and more than fifty of these photographs are now displayed in the Board Room. Photographic portraits of the fifth, sixth, seventh, and present Dukes of Devonshire, the successive Patrons; and of the late F.M. Viscount Combermere, and the present Duke of Rutland, the Presidents, have been presented; and those of the remaining Vice-Presidents, &c., not hitherto obtained, will be most gratefully received. The walls thus decorated are a signal and permanent record of numbers of deceased friends and benefactors, and must be a constant record of the grateful sense of priceless services, and be the contemporary record of the friends who are still working and striving for its advancement and history.

**R E P O R T**  
OF THE  
COMMITTEE OF MANAGEMENT  
OF THE  
DEVONSHIRE HOSPITAL  
AND  
BUXTON BATH CHARITY,  
FOR THE YEAR 1899.

---

GENERAL.

It is hardly necessary for the Committee of Management to reiterate their satisfaction with the results of the treatment of Patients in the Devonshire Hospital. The pure air and waters of Buxton lend their powerful aid to the happy results obtained in the great majority of cases of gout, rheumatism, etc., in their various forms, and complaints of allied character. As a watering-place and as a residential town Buxton continues to progress, and the season of 1899 will be remembered as one of the most successful experienced. The founders of the Devonshire Hospital, notably the successive Dukes of Devonshire, aided by the grant of £24,000 by the Governors of the Cotton Districts Convalescent Fund, have placed within the reach of thousands of the poor of our working people, the advantages of this noble Institution, giving them the free use of the Waters for baths and drinking, medical attendance of the highest class, and a comfortable home during their stay in Buxton. As a building the Hospital is an ornament to the town, and, when the several improvements in hand are carried out, it will be quite up to date and replete with every convenience. It may again be noted that the large central area is a great boon to Patients, as they are thus enabled at all times to move about freely in an atmosphere perfectly pure and warmed to a genial temperature. In fine weather the hand-

some grounds by which the building is surrounded give every facility for gentle exercise.

### ACCIDENT WARDS.

These Wards are now complete and have been often occupied—the Patients making rapid and satisfactory recovery. It is a matter of great thankfulness to all concerned that they are opened free from debt. Of course it is still possible to add with advantage to the surgical appliances, apparatus, etc., and the Committee will gladly receive any sums, however small, forwarded for this object. This satisfactory result has not been obtained without much thought, care, and hard work, and the Committee tender their best thanks to the Members of the Subcommittee appointed for this purpose. The Accident Wards are distinct from the Hospital proper, and the cost of maintenance of Patients therein cannot be charged to the Hospital funds, except in cases of absolute inability to pay. It was found to be necessary to undertake this work to meet the demands of a rapidly growing population, but Patients will be expected to pay the weekly charge and any extra expenses incurred when able to do so. It is most desirable that employers of labour in the town and district should be prepared to meet any demand for the cost of Patients sent by them in a generous spirit by giving a guarantee in advance, for such cost, that the Committee may be relieved from anxiety under this head. It cannot be too strongly urged that the Committee have absolutely no fund at their disposal to meet such outlay. The Buxton Lime Firms, Ltd., and the Midland Railway Company have already undertaken to meet the cost of Patients sent by them, and other employers might do well to follow their example.

### ALTERATIONS, IMPROVEMENTS, ETC.

Since our last report much has been done to improve the general efficiency of the Institution. The kitchen has received special attention, new cooking apparatus having been provided and several minor improvements effected. Part of the kitchen has been partitioned off for the accommodation of the nurses, the cook, and the other servants. A room has been provided for the meals of the resident medical men; the office at the entrance has been enclosed and made private; the telephone has been placed in the entrance, near the office; the old black boards containing lists of donations, etc., which were cumbrous and inartistic, have been replaced by others of a more decorative character, and the whole of the dome has been re-painted. In addition to these improvements, the entire sleeping accommodation of the Steward and Matron, and the servants, has been remodelled and extended. The total cost of these improvements

amounts to £1257 7s. 11d.—one-third of this, £419 2s. 8d., has been charged to Revenue; £526 5s. 11d. to the Estate account, and the balance will be spread over the next two years' Revenue account. There is now a scheme in hand for thoroughly revising the sanitary arrangements of the building. The old lavatories, etc., are found to be quite inadequate to modern demands, and, when completed, this alteration will be of immense benefit to the patients. Dr. Dickson and Mr. Hubbersty first brought this matter forward in a letter addressed to the Chairman, who promptly laid it before the Board, the result being that the sketch plans prepared by these gentlemen have been placed in the hands of Mr. Duke, the architect to the Hospital, for supervision and completion. When this is done and tenders are obtained, the work will be proceeded with. The best thanks of the Board are due to these gentlemen for the great trouble they have taken and are taking in this connection. By request of the Chairman, two of the pillars of the stone Colonnade have been thoroughly cleaned, to give Subscribers an idea of the effect which would be produced if the whole of these pillars were so treated. The House Committee have obtained tenders for the painting of all the woodwork, and colouring of ceilings, etc., which have not yet received attention.

### WINTER TREATMENT.

More Patients have visited the Hospital during the Autumn and early part of Winter than in former years. Subscribers will do well by using their recommendations during this part of the year as freely as in Spring and Summer. The season does not make any appreciable difference in the success of the treatment, and if the numbers could be more evenly distributed between Summer and Winter, much inconvenience both to the Staff and the Patients would be prevented.

### ENTERTAINMENTS.

The entertainments so kindly given in the Women's Day-room by visitors and residents have been much appreciated. Anything which breaks the monotony of convalescence and so helps to raise the spirits of the Patients and to keep them from brooding over their sufferings, which are sometimes very severe, is of great benefit to them; and the Committee are thankful to those who have given their services in this manner. A subscription list has been opened for the purchase of a new piano, which is greatly needed.

### RELIGIOUS SERVICES.

Prayers are read in the Hospital night and morning by the Chaplain or someone acting under his authority. There is a

service on Sunday, as well as at other times. These services are largely attended by the Patients, and doubtless help them to bear their affliction patiently.

### STATISTICS.

During the year 1899, 2835 In-patients have been admitted, being 101 less than in the year 1898. Of these 2485 were discharged as improved, 196 as no better, 22 at own request, 6 as unfit cases, 9 for drunkenness, 5 infested with vermin, 3 for misconduct, 4 transferred to Out-patients' department, 2 left without report, 7 died, and 96 remained on the books. Many of the cases are of the gravest character, which makes the success obtained all the more gratifying. Patients sometimes find it difficult to pay the cost of their journey to Buxton, all the more so when they live far away. The Charity Organisation Societies have given much help in this direction, and have thus enabled many to come to the Hospital who would otherwise have been unable to do so. There is a fund connected with the Hospital named the Samaritan Fund; its purpose is to help needy Patients to return to their homes by paying the whole or part of their return fare. Any subscriptions to this fund may be paid to the Secretary, and will be received with thankfulness. Patients are sent from all parts of the Kingdom, every large town and its neighbouring villages being represented. The local inmates of the Hospital are few. This includes the cases of accident.

The Governors of the Cotton Districts Convalescent Fund have again sent an important number of Patients. 450 have been admitted from this fund, being 37 less than last year. The cases sent by this Fund are principally those of a character most likely to be benefitted by a stay in the Hospital, complete rest from daily toil in an atmosphere trying to any but the most robust persons, good and plentiful food of a generous nature, and the mountain air and waters of Buxton, often effect a complete cure of rheumatic and kindred cases, and the majority of the Patients return home greatly relieved.

The Committee again desire to impress upon Subscribers the necessity of personal attention to the post-cards Patients receive as they leave. Without the knowledge thus obtained the Medical Staff cannot arrive at an accurate estimate of the work done. Cards duly filled in and returned during the year shew improvement in 1666 cases; 506 are returned as no better; and 4 as having died. These figures prove how valuable is the treatment received at the Devonshire Hospital.

The number of Out-patients admitted during the year was 201; of these, 139 were discharged as improved, 12 as no better, 44 left without report, 1 was transferred to In-patients' department, and 5 remained on the books at the end of the year.

The average number of Patients daily in the Hospital during the year was 172.7. The average number of beds occupied each month was as follows:—January, 62.1; February, 73.5; March, 102.6; April, 127.8; May, 194; June, 235.8; July, 240.8; August, 260.2; September, 257; October, 244; November, 160.6; and December, 107.3.

The average cost per day of each In-patient has been 2s. 1 $\frac{3}{4}$ d., being 1 $\frac{1}{4}$ d. more than last year. The average cost per week of each In-patient has been 15s. 1 $\frac{1}{4}$ d., and for the three weeks £2 5s. 4d., being an increase of 2s. 6 $\frac{3}{4}$ d. on the average cost for the same term last year. It is difficult to keep the expenditure of an Institution of this kind within uniform limits. Generous diet is very necessary; the bathing establishment absorbs a large sum (£336 7s. 11d. during 1899); the cost of nursing, service, drugs and surgical appliances, the maintenance of the fabric, repairs, painting, and improvements, and renewals and repairs of furniture, is always considerable. The Committee desire to exercise economy in all these departments, but they feel that the efficiency of the Institution is of the highest importance.

### FINANCE.

The Committee are thankful that they are able to carry on the work of the Hospital without making special appeal to the public. The Annual Subscription of a guinea is much too small to meet the cost of a Patient to the Hospital funds, and the Committee depend in great measure on donations, legacies, etc., generously bestowed by various donors.

The Revenue Account for the year ending December 31st. 1899, is submitted, together with the Estate Account and General Balance Sheet.

From the following sources of income there has been an increase on the receipts of last year, viz.:—Annual Subscriptions, Casual Subscriptions, Donations per Hotels, Hydros., Boarding and Lodging Houses, and Offertories and Collections in Churches and Chapels; from other sources of income the variation has not been great. The total ordinary income has been somewhat larger than that of the previous year.

His Grace the Duke of Portland has again generously given a donation of £55 from the sums received from Visitors at Welbeck Abbey.

A portion of a legacy under the will of Mrs. Bourne, Holbrook, amounting to £87 10s., has been received.

Seven Life Subscriptions have been received.

The Annual Statements of the Wilmot Relief Fund and Samaritan Fund Accounts, are submitted. Under the Wilmot Fund several deserving Patients have been received; and under

the Samaritan Fund about 40 destitute cases have been assisted with return railway fare or needful clothing. Contributions to the Samaritan Fund are earnestly solicited. The grants during the year amounted to £13 3s. 4d.; of which, £6 1s. 10d. have been returned by Patients or their friends. Statement is also submitted of the Accident Wards reconstruction account.

### OFFERTORIES IN CHURCHES.

The total sum received from Offertories and Collections in Churches and Chapels has been £158 11s. 2d. Of this sum £102 15s. 1d. was from St. John's, St. James', and St. Anne's Churches, Buxton. The preachers on Hospital Sunday were as follows:— St. John's Church, the Vicar, the Rev. C. C. Nation, M.A., the Rev. A. R. Thorold Winckley, M.A., and the Rev. C. A. Brereton, B.A.; in St. James' Church, the Rev. G. E. W. Holmes, M.A., and the Vicar; St. Anne's Church, the Rev. J. T. Mumford, M.A.; Fairfield Church, the Rev. J. Crabtree and the Rev. J. Eayrs; Burbage Church, the Rev. C. A. Brereton, B.A.; Trinity Church, the Rev. C. S. Green; St. Anne's Roman Catholic Church, the Very Rev. J. T. Canon Hoebe; Congregational Church, the Rev. W. Moncrieff, M.A.; Devonshire Park Chapel, the Rev. H. H. May; Wesleyan Chapel, the Rev. G. Hobson. Offertories, etc., were also received from Buxton Primitive Methodists, Middleton-by-Youlgreave Congregational Church, and from Over Tabley, New Mills, and Ashover Churches.

### VOLUNTARY AID.

The Committee gratefully acknowledge the aid given to the Institution by many outside agencies in Buxton, year by year. The proprietors of some of the Hotels, Boarding Houses, and Lodging Houses have materially assisted its funds by obtaining contributions from Visitors. The Directors of the Buxton Gardens Company, Limited, have allowed a Donation Box and a box for the reception of newspapers to be placed at the entrance to the Pavilion; the Directors of the Palace Hotel Company, Limited, have allowed a Donation Box to be placed in the Entrance Hall of the Hotel; the Buxton District Council has allowed a box for the reception of newspapers to be placed in the Pump Room; the proprietors of the local newspapers have inserted gratuitously, the annual, quarterly, and weekly reports, and the Meteorological reports.

The gratuitous services of the Honorary Medical Officers, the Dental Surgeon, the Honorary Chaplain, and the House Visitors, also demand the best thanks of the Committee. The Committee desire also to thank most heartily all the Officials of the Hospital for their assiduous attention to their duties.

## GIFTS.

The Committee gratefully acknowledge the receipt of gifts of warm clothing for the use of poor Patients, from Mrs. Rutter, Mrs. Lewis, Mr. W. H. Jackson, Mr. Howorth, Mr. Earwaker, Mr. Swindells, Mrs. Machin, Miss Machin, Miss Osmond, Miss Vernon Wentworth, Miss Luck, Miss Burgess, Miss Parkin, and the Derby and Derbyshire Needlework Guild; of a present of game, from the Earl of Derby; of pictures, from Miss Burgess; of toys and games, from Mr. Schunck and Mrs. Kendal; of cotton wool, from Mr. C. ## ELECTIONS.

Mr. Henry Shaw has been unanimously re-elected Chairman of the Board of Trustees and Committee of Management.

The Sheffield and Rotherham Joint Stock Banking Company have again been unanimously re-elected Treasurers of the Hospital.

The Chairman is *ex-officio* a member of the House Committee, and Mr. Duke, Mr. Walton, Dr. Dickson, Mr. Josiah Taylor, Mr. E. C. Milligan, Mr. J. H. Orme, Mr. F. Turner, Mr. T. H. Lowthian, and Mr. F. Drewry, have again been unanimously re-elected members of this Committee.

Mr. A. Schofield and Messrs. Halliday, Pearson and Co., F.C.A., have been unanimously re-appointed auditors.

---

At the Annual Meeting of the Committee of Management, held at the Hospital, on Friday, January 12th, 1900, the Report was adopted, and it was moved by Mr. H. A. Hubbersty, J.P., seconded by Mr. F. Drewry, and resolved unanimously, That the

thanks of the Trustees and Committee of Management be given to the Chairman (Mr. H. Shaw, J.P., D.L.), for the Annual Report, and that it be printed, with the Treasurers' Accounts, etc., and circulated amongst the Subscribers and Supporters of the Institution.

BUXTON.

RESOLUTIONS by the Stewards of the several Houses at Buxton, on behalf of the Contributors to the Charitable Fund established here, for the better regulation of the Charity, made September 13th, 1785.

1st. AS TO THE CONTRIBUTION.

WHEREAS, at the commencement of this Charity, in the year 1779, instituted for the purpose of rendering the Beneficence of the Noble Proprietor and his Ancestors (in setting apart a Bath for the Use of the Poor) more extensively beneficial; two Stewards were appointed in each House kept open for the Reception of Company to receive a Contribution of One Shilling only, from each Person residing in such Houses, for the Benefit of the Charity. And upon the Departure of one of the Stewards, the departing Steward hath nominated a Successor; and in order to ascertain the Sums contributed, the Stewards for the Time being, at each House, have kept a Subscription Book, in which the Contributors have respectively written their Names and the sum of One Shilling opposite thereto; and as the Subscriptions have amounted to competent Sums, the Stewards have paid over the same to Mr. Samuel Buxton, Apothecary, in Buxton, as Treasurer, to be applied by him towards the Aid and Support of the Poor, whose Infirmities have caused them to come to Buxton for the Use of the Waters; for which Sums the said Mr. Buxton hath signed Receipts in the Subscription Books. Resolved that such practice be continued, and that no Person be permitted to subscribe a greater Sum than One Shilling in the books; and that the Receipts of Mr. Buxton, or the Treasurer for the time being, in the Subscription Books, be sufficient Discharges to the Stewards for what they receive.

Resolved, That it be recommended to future Stewards to hold an Audit on the 13th of September, yearly, to inspect the Accounts of Mr. Buxton, or of the Treasurer for the Time being, and to state Accounts of the preceding Year in like manner as the Accounts are this day stated in the Subscription Book at the Hall. And it is declared, that the Allowance of a Duplicate of the Account by any two of the Stewards, under their hands, shall be a sufficient discharge to Mr. Buxton, and all future Treasurers.

Resolved, That all future contributors to the Charity do subscribe thereto upon the terms of these Resolutions.

---

2nd. AS TO THE ADMISSION OF THE OBJECTS OF THIS CHARITY.

Resolved, That no Inhabitant of Buxton, Fairfield, or of any place within Seven Miles distance from Buxton, be admitted to partake of the Charity: nor any Person be relieved during the months of November, December, January, February, March, or April; and that during the remaining six Months of the year, not more than sixteen Objects, at one Time, be relieved by the Charity. And that no Person shall be admitted on any other Day than Monday in every Week, between the Hours of eight and twelve in the Forenoon; on which Day, during such Hours, the weekly allowance to each Individual shall also be paid.

Resolved, That before the patient intending to take the benefit of the Charity be removed from where he or she dwells, Mr. Buxton, or the Treasurer for the Time being, be applied to by Letter, Postpaid, signifying such Intention, mentioning the Patient's Name, Place of Abode, and Nature of the Disorder; and that no Person be admitted unless there be a vacancy in the Number of Sixteen, and unless he or she first produces to the Treasurer his own Letter written in answer to such Application, and also a Letter of Recommendation from some Lady or Gentleman, resident in the Neighbourhood, certifying whether the patient is relieved by his or her Parish, or not, and if not, whether he or she is a proper Object, with Respect to Circumstances; and in case he or she is a Pauper, relieved by the Parish, then also a Certificate signed by the Churchwardens or Overseers of the Poor, that the Pauper's Settlement is in the Parish from which he or she is sent; and also a Certificate from a Physician or Apothecary, that the case is proper for the Buxton Waters.

Resolved, That the Names and Places of Abode of the Objects admitted be entered by Mr. Buxton, or the Treasurer for the Time being, in a Book (of which Book each Contributor is to have free Inspection), with a Description of the Patient's Disorder; and after his or her Discharge a Minute of the Consequence of the Use of the Waters.

### 3rd. AS TO THE APPLICATION OF THE CHARITY FUND.

It being the Intention of the Contributors, that the Money arising from the Contributions, be in every Case applied for the purposes of supplying the Patients during their Stay at Buxton, with Board, Lodging, and Medicines only; all Ladies and Gentlemen recommending Patients, and all Churchwardens and Overseers giving Certificates, are therefore particularly desired to take notice, that in Case the Patients shall be admitted to partake of the Charity, and shall die in the Parishes of Buxton or Fairfield, or in any Place within seven Miles Distance from Buxton, before he or she shall have actually returned to his or her own Parish, such Persons recommending, and such Churchwardens and Overseers certifying, shall be liable to pay the Expenses of the Funeral of such Patients respectively; and that the Charity Money, on no Account whatever, will be suffered to be applied to defray Travelling Expenses, either to or from Buxton.

Resolved, That no Patient be admitted more than once during a Season, nor be relieved by the Charity, for a longer space of time than five Weeks, from the Day of his or her Admission, nor with a greater Sum than Six Shillings each Week. But for how long a Time he or she shall be relieved less than five Weeks, or what allowance shall be made him or her less than Six Shillings per Week, shall be at the discretion of Mr. Buxton, or of the Treasurer for the Time being, taking the advice of the resident Physician, or Physicians, on the Case, who it is hoped, will kindly consent to give gratuitous Assistance when necessary.

Resolved, That Mr. Buxton, or the Treasurer for the Time being, be at liberty to retain all his necessary Expenses, occasioned by the Administration of the Charity, over and above what shall be expended in Board, Lodging, and Medicines.

Resolved, That if any Object receiving the Benefit of this Charity, shall beg or receive Alms, during his or her stay at Buxton, or be guilty of prophane Swearing, Drunkenness, Impertinence, or any gross misbehaviour, he or she shall be instantly (on complaint made) discharged from the Charity.

Ordered, That these Resolutions be printed, and hung up in as public a manner as possible, in the several Houses in Buxton, kept open for the Reception of Company, and wherever Contributions are received; and that the said Resolutions be sent by Mr. Buxton, or the Treasurer for the Time being, to every Person recommending a Patient, as a proper Object to partake of the Benefit of this Charity.

## METEOROLOGICAL REPORT FOR 1899.

### FROM THE READINGS AND OBSERVATIONS TAKEN AT THE DEVONSHIRE HOSPITAL, BUXTON.

---

The instruments, which are the property of the Devonshire Hospital Committee, consist of a Fortin's Barometer, Wet and Dry Bulb Thermometers, Black Bulb Thermometer "in vacuo" (for indicating solar radiation), Jordan's Sunshine Recorder, Rain and Wind Gauges. They are all in the Hospital grounds. The height above sea level of the first is 997 feet (verified by ordnance levels). The station is situated in Latitude 53°14' N., and Longitude 1°54' W. They are standard instruments, and are inspected and verified from time to time by an officer of the Royal Meteorological Society. Buxton being what is termed a "second class" station of the Society, readings and observations are taken twice daily, i.e., at 9 a.m. and 9 p.m.

A full report is sent to the Society every month, weekly reports are sent to the local paper, and the daily records are entered on a chart which is hung up for the benefit of the public at the Buxton Pharmacy, 11, Market Place.

**RAINFALL.**—This is of special interest to all in Buxton. The total fall for 1899 was 45.379 inches, which is 1 inch in advance of that for 1898, and  $5\frac{1}{2}$  inches less than that for 1897. The month which yielded the heaviest aggregate fall was September, which is credited with 7.072 inches, while only one month contributed less than 2 inches, the exact figure being 1.977. One day alone (April 9th) almost equals the whole month of July in rainfall, 1.91 inches being registered for that day, which constitutes the year's record. Though excessive, this does not establish a record locally, over 2 inches having fallen on February 10, 1894 (2.02), January 26, 1890 (2.21), and October 27, 1880 (2.38 inches). April and September yield the greatest number of days which contribute at least one-hundredth inch of rain each, their totals being 21, while March heads the opposing list with 21 fine days. The concluding table of this report proves that the 1899 total rainfall compared favourably with the averages for the last few decades.

**SUNSHINE.**—The total number of hours registered is high—1359.8. This exceeds that for 1898 (1138.8 hours), and for 1897 (1269.9 hours), and the average for 10 years (1072 hours). August has not one sunless day, but June heads the list with 251.6 hours of bright sunshine. December had 23 sunless days, and only 10.9 hours of bright sunshine. In this respect no less than 13 days of June each exceeds the whole sunshine of December. The maximum amount of sunshine in any one day was 15.3 hours on

June 16th, and this is one hour longer than the maximum in 1897 or 1898, and it is noteworthy that the summer of 1899 produced five days each of which exceeded the maximum day's sunshine for either of the two preceding years.

**TEMPERATURE.**—The maximum temperature in the shade for the whole year occurred on August 25th, and was 83.3° F., and the minimum 10.4° F., on December 14th. These are both higher and lower respectively than the absolute maximum and minimum for 1898. There were 75 frosty days, December being again to the fore, with 23.

**ATMOSPHERIC PRESSURE.**—The mean barometric reading, corrected to sea level and freezing point, is 29.968, the highest monthly mean being 30.124, for November, and the lowest 29.788, for January.

**WIND.**—The prevailing winds recorded at the stated hours yield the palm to S.W. with 135. W. and N.W. try for the second place with 106 and 103 respectively, N. being sparsely represented by 9 only. It should be noted that these figures only represent observations taken at fixed hours morning and evening. Out of 730 observations, 216 were taken during a calm state of the atmosphere, only one month (January) being entirely otherwise at 9 a.m. and p.m.

**ELECTRICAL PHENOMENA.**—A westerly gale, with thunder, occurred on January 11th. Thunder and lightning (sometimes distant) were heard and seen on February 8, April 13, June 28, August 5 and 15, September 23.

Monthly notes are as follows:—

**JANUARY** was a fairly bright month, half the days being sunless, the rest giving a total of 41.1 hours of bright sunshine. In point of rainfall it is the third month, and provides the second wettest day of the year, the rainfall measuring 1.18 inch out of a total for the month of 5.79 inches. There was a marked barometric depression on the 9th ushered in several wet days, and again on the 28th, which was accompanied by a rainfall of 1.18 inches within 24 hours. On the first four days snow fell; this occurred on 13 other days. Hail fell on the 11th and 19th, and 11 days were frosty. A thunderstorm occurred on January 11th. The last week of the month was frosty, and a few other isolated frosty days occurred before the 20th. The mean pressure for the month, 29.788, was the lowest of the monthly means.

**FEBRUARY** had more than double January's sunshine, yielding 85 hours, 6 days only being sunless. The total rainfall registered was 2.54 inches (or less than half that of January), and was spread over 13 days; the number of fine days therefore was above the average. The minimum temperature of 18° occurred on the 27th. As in the preceding month, the only spell of frost was during the final week, but in no case was the frost exceptionally keen. Thunder and lightning occurred on the 8th, and snow and fog on several dates.

**MARCH** was an exceptionally fine and bright month, with no less than 124.2 hours of sunshine to its credit, and only 2 sunless days and 2.435

inches of rain to its debit. March commenced badly with its legacy of a high barometric level from its predecessor, consecutive small reductions (but no serious depression) being noted twice daily till the 4th, light rain falling on the 3rd and 4th, rapidly recovering itself on the 5th, only to fall away again to the 8th, followed by a firm advance to a high level on the 18th, which was well-sustained for one week; after that occasional showers till the 31st, which was a soaking Good Friday. Frost was recorded from the 4th to the 7th, inclusive, on the 13th and 16th, and for one week, commencing the 18th. Lunar halos were observable on the 24th and 27th.

APRIL must of course fall behind the high-water mark of March, but still shows exactly double the number of hours of sunshine of January, and one-quarter the number of sunless days. Rainfall was heavy, the 9th proving itself eventually to be the wettest day of the month, the mercury then standing at 28.51. The first day of the month was fine—a decided contrast to the day immediately preceding it. From the 2nd to the 17th inst. some rain fell each day; also from the 24th to the conclusion of the month. The shade temperature ranged from 8 degrees of frost on the 18th, to 60° F. on the 27th, the mean for the month being 42.5°. Light snow fell on the 8th, 12th, and 16th.

MAY developed into a fine month, excepting between the 14th and 24th, when some rain fell almost every day, total fall being 3.47 inches. May (with June and August) occupies a favourable position with regard to scarcity of clouds and relative humidity. The days were beautiful, without a break, from the 25th inst. to the 18th prox., 16 of these days each registering over 10 hours of bright sunshine, the maximum for one day in May being 14.8, and the month's total 159.6 hours. The maximum shade temperature was reached on the 31st (71°), but the average was much lower (55.8°).

JUNE.—Sunny June was a lovely month for Buxton: 251.6 hours of direct sunshine, with only one sunless day, and a record day of 15.3 hours, the total enabling it to claim first place for the year. The mean shade temperature was 57.8°, which was just two degrees below the hottest month (August). June shows a mean corrected pressure of 30.064, its maximum being 30.52. The mercury was high on the 1st, and gradually increased till the 8th, when the maximum, 30.52, was reached, then a gradual decline took place in regular successive easy stages to the 20th (the levels on the 1st and 14th being alike). The next four days show an improvement, and after that the mercury fluctuated within moderate limits, the last evening culminating in a downpour, which yielded .885 inch. The total rainfall of 2.505 inches was much below the average for this month. June scored well on the points of relative humidity and proportion of clouds.

JULY opened inauspiciously (a contrast to June), but recovered itself by the 4th for four brilliant days, then four miscellaneous days, followed by ten which were simply glorious. The 22nd was wet, and a little rain fell on the 25th and 26th, but the remaining days were fine, though duller and cooler, except the closing day, which was bright and warm. July afforded us 147.7 hours of sunshine on 26 days. Its total rainfall being only 1.977 inches, constitutes it the driest month of the year. Its corrected

mean pressure was 30.055. Its mean temperature of  $59.3^{\circ}$  was only half a degree behind August. Some fine cloud effects were noticed. The month was free from electrical disturbance in this district.

AUGUST.—The hottest month of the year. The maximum temperature registered in direct sunshine only reached  $120^{\circ}$  on one occasion. Almost all the really hot days were tempered by refreshing moorland breezes. This was much appreciated, especially by those visitors who had been driven from the cities and lowlands by the excessive temperature. The mean shade temperature of  $59.8^{\circ}$  was the record for the year, the highest point reached in the shade being  $83.3^{\circ}$ . To August also belongs the honour of showing the highest corrected mean pressure of 30.103, and of showing a clean sheet free from sunless days. The 2.38 inches of rain which fell were distributed over 13 days. On the evenings of the 5th and 15th distant thunder and lightning were heard and seen, and were followed by a welcome reduction of temperature.

SEPTEMBER earned the unenviable reputation of being the wettest month, rain falling on 21 days, to the extent of 7.072 inches. Consequently the mean corrected pressure was at 29.815—the lowest in the year except January and April, these three months also yielding the three wettest days for 1899. Only one day, however, was entirely devoid of bright sunshine, the remaining 29 being responsible for 101.2 hours of this. The month was remarkable for the frequent barometric changes, only on one occasion were three consecutive days free from rain. A thunderstorm occurred on the 23rd.

OCTOBER was an improvement on its predecessor in hours of sunshine (129.8), mean corrected barometric height (30.037), amount of cloud (5.2), total rainfall (4.585), and days on which some rain fell (not necessarily wet days) (13). It was not an ideal month, though isolated fine days occurred, and two fine spells from the 3rd to the 7th, and from 14th to 25th. Rainfall was below the average. Nine nights were frosty to a slight extent. The atmosphere was calm during 34 observations, and the bulk of winds were S.W., W., and N.W.

NOVEMBER was a mild overcast month, with occasional fogs. Westerly winds prevailed (20 observations), but there were 17 observations of absolute calm. Rainfall was low, 2.39 inches being contributed on 15 days. Just over half the days were devoid of sunshine, the total yield being but 29 hours, the lowest on record excepting December. The mercury steadily fell for the first few days, a smart rise and fall occurring on the 4th. During the 5th, 6th, and 7th, a good level was maintained, but a marked depression gave character to the 8th, thence onward and upward to the 12th, culminating in a week of fine weather and high register, and this was fairly regularly maintained till the month expired. Buxton, from its altitude, was expected to prove a good vantage ground for the observation of the swarm of Leonids, through which the earth passed about the 19th inst. Unfortunately, in common with England generally, the atmospheric conditions were unfavourable, dense clouds prevailing, to the great disappointment of the many would-be observers and photographic recorders. Only isolated observers saw even odd Leonids.

DECEMBER.—Each succeeding winter appears to lessen in severity. Up to this month there was little frost or snow, but December proved itself a typical month, and afforded the skaters, and especially the tobogganers and sleigh riders, much pleasure in the pursuit of their hobbies (or labours). Snow fell on 9 days, but of course lay on the ground much longer. The month was characterised generally by clear crisp atmosphere and freedom from wind. There were only 10.9 hours of direct sunshine spread over 8 days, which was below the average. Mean pressure was 29.889, and rainfall 4.34. The lowest temperature recorded for the year was 10.48, on the 14th of this month. Christmas Day was in its accustomed snowy garb, and the year closed with a light fall of snow.
